

FDNY MSOC 2019

May 16 - 19, 2019

7th Annual FDNY Medical Special Operations Conference

The FDNY, in partnership with the FDNY Foundation, is proud to invite all first responders to the 7th annual Medical Special Operations Conference (MSOC). For the past seven years, MSOC continues to be the conference that military, federal, state and local medical responders attend to share their experiences, best practices, and ideas. Each year MSOC continues to evolve to include current hot topics, latest medical technological updates, and recent case studies from around the world. Continuing Education Units (CEU) are available to paramedics, nurses, physician assistants and physicians.

MSOC takes place over four days and consists of workshops, lectures, panel discussions, hands-on skills scenarios, and a vendor showcase with the latest equipment and products. The optional pre-conference workshops have several options and includes light fare and drinks at the NYC Fire Museum .

-- Space is limited so please register ASAP!! --
