NAEMT's TCCC course is accredited by the Continuing Education Coordinating Board for Emergency Medical Services (CECBEMS) and recognized by the National Registry of EMTs (NREMT).

The Tactical Combat Casualty Care (TCCC) course introduces evidence-based, life-saving techniques and strategies for providing the best trauma care on the battlefield.

You will learn the same skills that are taught to US Dept. of Defense and NATO Medical personnel before they are deployed overseas.

The same skills that have decreased the rate of death from combat wounds to the lowest in history!

Skills and Concepts taught include:

- **Rendering care under fire**
- **Extricating injured from hostile environments**
- **Hemorrhage control techniques using tourniquets, hemostatic agents and junctional tourniquets**
- **Innovative airway, breathing and shock management techniques proven effective in some of the worst places on Earth!**
- **Performing procedure using a night vision devices**
- **State-of-the-art pain management procedures**
- **Evacuation Care and much, much, more!**
